

XTRATUF®

FALL 2019

A person wearing black Xtratuf rubber boots stands on a boat deck. A large fish, possibly a salmon, is lying on the deck in the foreground. The boots have a yellow sole and the Xtratuf logo is visible on the side. The background is slightly blurred, showing the boat's structure.

BUILT FOR ALASKA, FIT FOR EVERYONE

We come from Alaska, where nothing is forgiven and no compromise goes unpunished. Where 50-foot seas swallow the slightest missteps. We come from a place of unreasonable demands, and impossible standards. For more than 50 years, we've exceeded them all. We've earned the respect, loyalty and trust of people who can't afford to take trust lightly, so we don't take it lightly either.

XTRATUF® is part of an authentic marine lifestyle that values authenticity, performance and hard work—qualities appreciated not only by fisherman on the Bering Sea, but by commercial, sport and leisure customers everywhere. Xtratuf is excited to expand our product offering this season to include a whole new line of boots and shoes designed to support sport and leisure consumers.

You may never need footwear built to stand up to what ours do every day. But because our footwear exists, you never need to settle for less than XTRATUF®.

XTRATUF® TECH

	100% WATERPROOF	Boots that are built to be 100% waterproof
	WATER RESISTANT	A spray-on treatment that provides maximum water repellency
	OIL RESISTANT	Honeywell RDR® rubber will outwear standard rubber boots in solvents, caustics, hydrocarbons, oils, fats & acids
	XPRESSCOOL™	Anti-microbial evaporative cooling liner
	BREATHABLE MESH	A highly durable sandwich fabric which allows the foot to breathe
	ACID CHEMICAL RESISTANT	Triple dipped, latex Neoprene with a seamless exterior / tested against organic and inorganic acids and chemicals
	SLIP-RESISTANT	Our SRA outsoles are made from an exclusive rubber compound that grips the floor surface creating sure footing
	SRC	SRC is currently the highest rating for slip resistance under the EN ISO 20345-2011 standard and requires passing both the SRA and SRB test for it to achieve the rating. These tests are performed on a slip test machine under laboratory conditions using two specified surfaces and contaminants: SRA uses a ceramic floor tile wetted with soapy solution and SRB a smooth stainless steel with glycerol.
	GLACIER TREK™ PRO	SRC slip resistance and frosted surface traction
	COMPOSITE TOE	Boots are tested to meet ASTM F2413-11 M/75 C/75
	STEEL TOE	Boots are tested to meet ASTM F2413-11 M/75 C/75
	CANADIAN STANDARDS ASSOCIATION	Boots are tested to meet CSA Z195-09
	TEMPERATURE RATINGS	Suggested ratings to determine the right boots for any weather situation

 LIMITED INVENTORY

BOATYARD COLLECTION

The boatyard collection is curated for seasoned commercial fishermen who are wrapping up their fishing season and are prepping for winter. They are mending nets, winterizing their boats and loading up on provisions for the change of season. These waterproof leather boots provide slip resistance and traction on or off the boat. These are tough enough for working on the boat while stylish enough for a run into town.

THE LEGACY 2.0 COLLECTION

We've been outfitting commercial fishermen for more than 50 years with the Legacy Collection and in that time we've taken our learnings and created the new Legacy 2.0. Engineered to withstand the world's toughest conditions, we started with a new form fitting last, a new outsole that passes SRC slip-resistant rating, added a textured heel for easy on/off that won't get caught in gill nets, contoured the topline binding so it does not rub harshly against your leg, and finally we've included a polyurethane comfort insole.

ACID & CHEMICAL RESISTANT

TRIPLE-DIPPED NEOPRENE

**SRC NON-MARKING, SLIP-RESISTANT
CHEVRON OUTSOLE**

New Shin Guard

An extra layer of rubber was added to prevent wear to shin area

Scalloped Top Line

The scalloped top line avoids rubbing the back of the leg

**Acid/Chemical
Resistant Upper**

Triple-dipped latex neoprene is naturally resistant to organic and inorganic oils and fatty acids

New Bib Guard

An extra protective layer of rubber was added in the forefoot area to prevent wear when foul weather gear is worn

Brand New Last

The brand new form fitting last makes for a proper fit for the modern fisherman

Textured Heel for easy on/off

The textured heel provides for easy on/off capabilities while also being subtle enough not to get caught in gill nets

New Outsole Design

The new outsole design is rated as SRC slip-resistant, the highest level of slip-resistance awarded

Composite Toe

A composite toe is added to provide maximum protection in a lightweight package

PU Comfort Insole

Polyurethane insole for added comfort

Steel Shank

Added for reinforcement

THE LEGACY COLLECTION

All boots within the Legacy collection are 100% waterproof. Each boot is made with our signature triple dipping technique, which creates a seamless barrier that is highly resistant to many organic and inorganic acids, chemicals and contaminants. Our latex neoprene is ozone resistant, and is softer, lighter, and far more pliable than ordinary rubber. Cushioned insoles with arch support help fight fatigue and stress on the legs and back. All XTRATUF® Legacy boots come with a non-marking, slip-resistant Chevron outsole that provides unparalleled traction on any surface in the most extreme conditions. Insulated styles come with built-in Polymeric Foam insulation. The insulation package will keep your feet warm even when it is -10°F.

ACID & CHEMICAL RESISTANT

TRIPLE-DIPPED NEOPRENE

SRA NON-MARKING, SLIP-RESISTANT CHEVRON OUTSOLE

Triple-Dipped Rubber

XTRATUF dipped neoprene footwear is triple-dipped to create a seamless coating of rubber that is highly resistant to many organic and inorganic chemicals. Vulcanizing further seals and strengthens this superior watertight material

Neoprene Latex Rubber

Neoprene latex rubber is softer, lighter and far more pliable than ordinary rubber, making neoprene boots more comfortable and flexible

Hand-Layered Construction

Hand-layered construction allows flex and strength at critical stress points

XTRATUF x SALMON SISTERS COLLABORATION

This collection's prints are original designs by two young Alaskan fishermen, born and inspired by the wilderness of Alaska and the sustainable fisheries of the North Pacific. Salmon Sisters products are designed in Alaska, inspired by nautical tradition, and made for a community of fishermen, adventurers, and ocean-enthusiasts. Salmon Sisters strives to make their garments the ones you dress up, dress down, and get dirty because they're just too cool and comfy to take off. The Salmon Sisters work with organizations that support conservation of wild spaces and wild seafood and for every sale made, they donate a can of wild Alaska salmon to the Alaska Food Bank.

ELITE COLLECTION

The Elite Collection is designed to provide the protection and durability of a Legacy boot with unmatched comfort for long days at sea or long hours on the dock. Using the Honeywell Proprietary RDR™ oil/chemical resistant compound, this boot is resistant to many organic and inorganic acids, oils, chemicals and contaminants. Built with a Spandura® covered 5mm neoprene bootie; this allows the boot to be comfort rated to -20°F. XTRATUF® Elite boots are built on either our classic non-marking, slip-resistant Chevron outsole that provides sure-gripping traction or the new Glacier Trek™ Pro outsole which provides traction on soapy tile, glycerin on steel and frosted surfaces for truly Elite traction.

SPORT FISHING COLLECTION

STAY DRY AND COOL FROM THE INSIDE OUT

ONE LINER. THREE FUNCTIONS.

1 WICK

As your foot sweats, the XpressCool™ lining pulls moisture away from your skin.

2 DRY

The XpressCool™ lining spreads the moisture, allowing it to evaporate much faster.

3 COOL

This creates a cooling effect—keeping your feet comfortable and dry in warm weather.

PLUS: ANTIMICROBIAL PROTECTION

XpressCool™ lining also contains antimicrobial properties, which protect against bacteria, fungus and other microorganisms.

DECK BOOTS

XTRATUF® Deck Boots have been crafted specifically for sport and recreational fishermen. Anglers are athletes and they need proper footwear to help them perform at their best. We've created lightweight silhouettes with the same XTRATUF® non-marking, slip-resistant Chevron outsole.

PERFORMANCE SANDALS

Flip-flops are often times the preferred footwear of choice for many warm water anglers. It's important the choice of flip-flop keeps the angler in the shoe and provides sure footing. The North/South Shore features XTRATUF's signature non-marking slip-resistant outsole, the same sole featured on our iconic Legacy boot. The molded foot cradle holds your foot in the flip-flop while the Chevron outsole keeps you sure footed while you fight the fish on the other end of the line.
